

OSM-REFERRALS | COMPLETE REFERRAL SYSTEM WITH LEADERBOARDS

SETUP / INSTRUCTIONS

1. Download the ZIP file and place the script in your resources. **Do not Rename the Script Folder.**
2. Go into your qb-interior script, client/main.lua, then look for the qb-clothes:client:CreateFirstCharacter event around **line 55**.

Replace it with

TriggerServerEvent('osm-referrals:Server:MainTrigger')
3. Fill all the Fields of config.lua of *osm-referrals* script.
4. **Import the SQL File to your own DB.**
5. Start the Script with the server.
